Objective

Results-driven Data Science graduate student at Montclair State University with expertise in data analytics, machine learning, statistical modeling, and data visualization. Passionate about applying AI and data-driven solutions to real-world problems in healthcare, medical device testing, and intelligent systems. Experienced in building predictive models, interactive dashboards, and analytical workflows using Python, SQL, Power BI, and machine learning frameworks. Adept at collaborating across teams, solving complex analytical challenges, and delivering actionable insights in fast-paced, innovative environments.

Experience

TATA GROUP (FORAGE), REMOTE

BUSINESS INTELLIGENCE ANALYST INTERN (SEPT 2024 - NOV 2024)

- Framing the Business Scenario
- Choosing the Right Visuals
- Creating Effective Visuals
- Communicating Insights and Analysis

IBM Skills Build, REMOTE

DATA ANALYST INTERN (JUN 2023 - JUL 2023)

- Developed and implemented Data Science models.
- Conducted data preprocessing and cleaning.
- Created reports and data-driven presentation

Education

Montclair State University, New Jersey (August 2024- May 2026)

Major: Master of Data Science

Course work includes - Machine Learning, Data mining, Statistics, Exploratory Data Analysis, Database Systems

MLR Institute of Technology, India (Sept 2020-May 2024)

Major: Bachelor of Data Science (CGPA: 3.3/4.0)

Course work includes - Database Systems, Data Analytics, Data Mining, Machine Learning, Big Data Analytics, Deep Learning, Statistical Analysis.

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, R
- **Data Analysis & Visualization:** Power BI, Tableau, Pandas, NumPy, Matplotlib, Seaborn
- **Machine Learning & AI:** Scikit-learn, TensorFlow, PyTorch, Deep Learning, NLP
- **Cloud & Databases:** Azure SQL, MySQL, Oracle SQL
- **Tools & Technologies:** Git, Jupyter Notebook, Visual Studio Code, Streamlit
- **Data Engineering:** ETL Pipelines, Data Cleaning, Feature Engineering, Data Transformation

Projects

A Clinical Decision System for Heart Disease Prediction Using Deep Learning (September 2025 - Mar 2026)

- Designed a software application for heart disease prediction. Utilized a diagnostic framework exploring diverse machine learning techniques on the UCI dataset, identifying risk factors, and improved efficiency.
- Technologies used: Deep learning, Dense neural networks, python, Web applications

Care Pulse Analytics — Healthcare Readmission Prediction Pipeline (september 2026 - Present)

- Built a healthcare analytics pipeline to predict patient readmission risk using machine learning and Power BI dashboards.
- Technologies used: Python, SQL, Azure SQL, Power BI, Scikit-learn

Sentiment Analysis to Predict Elections Using Python (Aug 2022 - Jan 2023)

- Created a software model for election prediction. Utilizing sentiment analysis of tweets to gauge widespread inclinations toward specific topics, items, or entities.
- Technologies used: Twitter web scraping, Data analysis, Data Visualization, python

Stock Market Prediction (10/2021 - 02/2022)

- Developed a software application to predict the future value of the financial stocks of a company. Utilized machine learning, algorithms predict future stock values from current indices.
- Technologies used: Machine learning, python

Coco-Cola Sales Dashboard

- Designed and developed an interactive dashboard to visualize sales data across U.S. states, analyze operating profit, and provide actionable insights to enhance decision-making.
- Technologies used: PowerBI, Data Analysis

Achievements

• Research

Published a UGC Research paper on "**A DETAILED EVALUTION ON OPTICAL CHARACTER RECOGNITION**"
DOI: 10.4018/979-8-3693-5261-8.ch012

• Community Service Volunteer

Actively participated and contributed as a volunteer with the "**LORD Welfare Organization**," a government-recognized initiative dedicated to supporting underprivileged communities by providing food supplies and extending aid during natural disasters.

• Event Leadership and Coordination

Organized and led a workshop and hackathon on "Working with AI using Python" as part of the SQUAD Club, managing logistics and ensuring seamless execution. Coordinated with teams and stakeholders to create an engaging, hands-on learning experience for participants.

• International Olympiad (school endorsement)

Gold Medal - International Mathematics Olympiad: Demonstrated exceptional analytical and problem-solving abilities.

Certifications

• Coursera

Coursera has certified my completion of Google Data Analytics. (08/2022 - 07/2023)

• NPTEL

Certified for course completion in Data Analytics with python by NPTEL (01/2023 - 04/2023)

• Smart Interviews, Hyderabad

Certified for course completion in DSA by Smart Interviews (03/2022 - 01/2023)
